PRESS RELEASE

PENN DESIGN GROUP, LLC NEWS

RICHMOND, VA (April 16, 2014) – We are proud to announce the following:

Penn Design Group, LLC has been certified as a Minority Business Enterprise/Disadvantaged Business Enterprise (MBE/DBE) by the Virginia Department of Transportation in the State of Virginia.

We are committed to building a company which offers services far beyond the norm. Our goal from the start has been to establish an organization serving complete building construction needs; from concept, to design, to construction. This certification places a vital role in ensuring we meet that goal by allowing us equal opportunity to serve the Commonwealth of Virginia in vertical construction projects.

Also, the Penn Design Group, LLC name has slowly gained recognition around Central Virginia and North Carolina since its conception in 2012 and as a company, we are proud of the leadership team and the founder, Jesse R. Penn, III for this accomplishment as well.

COMING SOON!

Two page article depicting the life of Jesse R. Penn, III and the start of Penn Design Group, LLC to be published in the Metro Business section of the Richmond Times Dispatch.
